

Curriculum Vitae F.M. Goes, Jr.

Personal data

Name: Goes
First name: Frank Mathilde Raymond
Address: Hofse Velden 1 B-2970 's-Gravenwezel, Belgium
Phone: +32(3)7558007
E-mail: frankjr@goes.be
Nationality: Belgium
Date of birth: 23 April 1969

Married to Annick D'Hollander, 04-05-1996

Children :

- Stéphanie °27-11-1997
- William °14-12-1998
- Louise °06-02-2001
- Vincent °31-07-2002

Dr. Frank Goes Jr. (°1969) graduated in 1998 after a medical training in ophthalmology and eye surgery at the universities of Leuven, Ghent and Paris. After his training, he joined 'the Goes Eye Centre', a private practice with a team of 7 ophthalmologists in Antwerp, Belgium, where he became co-responsible for the department of Cataract & Refractive surgery. In 2011 he became the Medical Director of this team. The ambulatory eye center was completely rebuild in 2011, and became a hypermodern extramural eye surgery center with only the highest standards in sterility and hygiene and with a vast national and international clientele. Dr. Goes is an advisor for many ophthalmological companies, and a frequent speaker at national and international meetings. He was a member and president of many national societies, and is a member of many international societies, such as ESCRS, ASCRS, ISRS, AAO, and others. He has a vast experience in cataract and laser surgery, and a special interest in cataract surgery with multifocal implants. The Goes Eye center has over 20 years of experience using multifocal implant lenses. He was the first ophthalmic surgeon in the Benelux to start using the new 'Small Incision Lenticular Extraction' (Smile) laser technique to correct nearsightedness and astigmatism. In 2015, he started 'laser' cataract surgery using the 'Catalys' femtosecond laser. Laser assisted cataract surgery will probably be the most important advance in eye surgery since the last 25 years. In 2017 he became president of the Belgian Eye Laser society (Bels). In 2018 he was responsible for merging 'Bels' with the Belgian Ocular Laser Society (Bolc) to become the biggest group of eye laser surgeons in Belgium, creating the 'Laser Vision Clinics' (LVC). At present and in the future he hopes to be able to continue to help patients getting rid of their glasses using the most modern techniques available. He feels lucky to be an eye surgeon, the most beautiful profession in the world.

Training

Primary school

Sint-Michielscollege in Brasschaat (1975-1981)

High school

Sint-Michielscollege in Brasschaat (1981-1987)

Direction: Latin Mathematics

University education

- Studies medicine (1987-1994)
 - Bachelors : LUC Hasselt, Belgium
 - Masters : KUL Leuven, Belgium. Graduated cum laude 1994.
 - Thesis : 'Cortical blindness' June 1993
 - Master thesis : 'Nervus opticus decompression in pseudotumor cerebri', June 1994
- Residency in Ophthalmology
 - 1st year : 1994-1995 conducted by Prof. Dr. Y. POULIQUEN, Service d'Ophtalmologie de l'Hôtel-Dieu, 1 Place du Parvis Notre-Dame, F.-75181 PARIS Cédex 4, FRANCE
 - 2nd year : 1995-1996 conducted by Prof. Dr. L. MISSOTTEN, Department of Eye Diseases, St. Raphael Hospital, Capucijnenvoer 33, 3000 Leuven, BELGIUM
 - 3rd year : 1996-1997 conducted by Dr. M. BLANCKAERT, Department of Eye Diseases, Clinic Black Sisters, Rijsselstraat, 8900 Ypres, BELGIUM

- 4th year :1997-1998 conducted by Prof. Dr. J.J. DE LAEY? Department of Eye Diseases, University Hospital Ghent, De Pintelaan 185, 9000 Ghent, BELGIUM
- Fellowships
 - 2002 Fellowship Oculoplastic Surgery, led by Dr. W. VAN DEN BOSCH & Dr. D. PARIDAENS, Rotterdam Eye Hospital, Schiedamsevest 180, nl 3011 BH Rotterdam, THE NETHERLANDS

Hospital experience

1999-2001

ZNA, campus St.-Erasmus. Contact : Dr. Walter Rosquin, Chief Physician

2002

AZ Klina. Contact : Mr Roelants, Managing Director

2004 - present

AZ Lokeren. Contact: Dr. D. Van Winckel, Head Physician

Additional diplomas

Graduate of the "International Council of Ophthalmology"

International Clinical Science Assessment Test-4 April 1998

639 points = percentile 93

1st place of all Belgian participants

8th place out of 100 international participants

ICH Good clinical practice E6 (R2)with a score of 89% on 10/05/2020

This ICH E6 GCP Investigator Site G-Training meets the Minimum Criteria for ICH GCP investigator Site Personnel Training identified by TransCelerate Biopharma as necessary to enable mutual recognition of GCP training among trial sponsors.

Surgical experience

Cataract surgery : phaco-emulsification > 10.000 procedures
Laser surgery to correct myopia and myopia
Eyelid surgery : ptosis, congenital ptosis, entropion, ectropion, tumor reconstruction, etc.
Strabismus surgery
Tear duct surgery : silicone intubation, dacryocystorhinostomy, ...
Glaucoma surgery
Relex Smile Corneal Refractive Surgery

Given courses

1997-1998 : Course neuro-ophthalmology
Lecture series to 2nd-year students orthoptics at hipb (Higher Institute for Paramedic professions) in Ghent.

June 13, 2010 : Senior lecturer in international Wetlab course Phakic IOL Implantation with Artisan-Artiflex lens
Ophtec, Groningen, Netherlands

2013-2020 Head instructor in Wetlabs 'Cataract Surgery for Beginners'
Ophthalmologia Belgica 2013-2014-2015-2016-2017-2018-2019
Wetlab course leader
Brussels, Belgium

Scientific publications

Astigmatic changes after sutureless small-incision cataract-surgery using a superior or temporal corneal incision

Frank M. Goes, Jr., Frank J. Goes
Bull. Soc. Belge Ophtalmol., 268, 27-32, 1998.

How to calculate surgically induced astigmatism after cataract surgery ?

Frank M. Goes, Jr., L. Missottes
Bull. Soc. Belge Ophtalmol., 268, 35-40, 1998.

Book review : Ocular Therapeutics Handbook

F. Goes, Jr.
International Ophthalmology 21: 359-360, 1998.

Glaucoma : new insights into treatment

F. Goes, Jr.
Antwerp Pharmaceutical Journal, March 2000

Biometry, tips and tricks

F. Goes, Jr.
Actualia, January 2001

Biometry after refractive surgery

F. Goes, Jr.
Actualia, February 2001

Nasal polyps herniating through lacrimal-nasal bony ostium mimicking dacryocystocele: a rare cause of DCR failure.

F.M. Goes, Jr., P.P. Knecht, A.D.A. Paridaens.
Orbit 2004, Vol 23, No 3, p 189-191.

Congenital tear duct stenosis

F. Goes, Jr.
Journal of Medicine 2005, Vol 61, no 17, p 1192-1198.

Clinical studies

2013: The new Tecnis multifocal low add lens

Sponsor: Abbott Medical Optics Inc.

Scientific title: Market Assessment Clinical Study of expanded Design of the Tecnis® Multifocal 1-Piece IOL

ID: DIOL-107-ZMLA

WHO Register: DRKS00004740

Purpose: Market assessment with the TECNIS Multifocal Low-Add IOLs, Models ZKB00 and ZLB00

Study type: Prospective, multicenter, bilateral, open-label, 30 patients in total enrolled and bilaterally implanted, three (3) months follow up, 6 sites in Europe

2014: The new AMO Symphony lens

Sponsor: Abbott Medical Optics Inc.

Scientific title: Post-market clinical follow-up investigation of the marketed Extended Range of Vision IOL

ID: EROV-108-COMP

WHO Register: DRKS00005742

Purpose: evaluate the performance of the marketed AMO-ERV 1-Piece Acrylic IOL, Model ZXR00

Study type: Prospective, multicenter, bilateral, open-label, 150 patients in total enrolled and bilaterally implanted, three (3) months follow up, 15 sites in Europe

Scientific presentations at national/international meetings

Prise en Charge des Plaies du Globe sans Corps Etranger Intraoculaire - à propos de 351 cas.
Free communication.

F. GOES Jr., B. MASHHOUR, D. CHAUVAUD, Y. POULIQUEN
Service d'Ophtalmologie, Hôpital Hôtel-Dieu de Paris, France.
101ième Congrès de la Société Française d'Ophtalmologie, 7-11 mai 1995, Paris, FRANCE.

Corneal Changes after Retinal Detachment Surgery with Hydrogel Localized Explants
Poster Presentation

F. GOES Jr., B. MASHHOUR, G. CAPUTO, Y. POULIQUEN, D. CHAUVAUD
Department of Ophthalmology, Hôpital Hôtel-Dieu de Paris, France.
ARVO 1995 - May 14-19, 1995, Fort-Lauderdale, Florida, USA.

Comparative analysis of topographic abnormalities induced by sclerotomies' sutures in optic indications of vitrectomy.

Poster Presentation
N. CASSOUX, B. MASHHOUR, F. GOES Jr., Y. POULIQUEN, D. CHAUVAUD.
Department of Ophthalmology, Hôpital Hôtel-Dieu de Paris, France.
ARVO 1995 - May 14-19, 1995, Fort-Lauderdale, Florida, USA.

Perforating ocular trauma without intraocular foreign body : a prognostic analysis.

Free communication
GOES F. Jr., MASHHOUR B, POULIQUEN Y.
Department of Ophthalmology, Hôpital Hôtel-Dieu de Paris, France.
JERMOV '95, October 1995, Montpellier, France.

Comparative analysis of topographic abnormalities induced by sclerotomies sutures in vitrectomies.

Free communication
MASHHOUR B, GOES F, ASSOULINE M, POULIQUEN Y.
